

**MARKERS AND POST-ITS?  
OR CAN YOU USE DIGITAL TOOLS?**

Cutting back on stationary is one of the easiest and first steps for waste reduction. Explore alternative tools to replace the traditional pen and paper methods.

**ALL THIS CONTENT IN 1 WEBPAGE?  
OR CAN YOU SEPERATE THEM?**

Findability in web design means sectioning the content so users can access information easily without having to load everything at once. It saves more energy as opposed to an overloaded site, plus, it's more user friendly.

**TO COMMUNTE TO MEETINGS?  
OR CAN YOU COLLABORATE ONLINE?**

Limiting the number of travels can help with reducing CO2 emission greatly. Utilize remote collaboration tools and research methods, or ensure every travel is worth the trip.

**6 LOADING ANIMATIONS?  
OR CAN YOU REDUCE THE PAGE LOAD?**

More features means more data, not only does it put a burden on the load speed, it also creates a larger carbon footprint. Learn to define and balance the use of essential and supplementary features.
